SYNTHETIC TEST DOCUMENT — NOT A REAL INVOICE — FOR ESG SOFTWARE TESTING ONLY
DEMO DOCUMENT — NO PAYMENT DUE | All details are fictional and generated solely for OCR, validation, and workflow testing.

GREENFUEL DEMO SUPPLIES LTD.

Fictional supplier for ESG software testing

Supplier Ref: DEMO-SUP-0042
Industrial Zone Phase II, Synthetic District
Contact: demo-supplier@greenfuel-example.com

Document Number:	**DEMO-DIESEL-INV-2026-0042**
Document Date:	**15 September 2026**
Reporting Period:	**September 2026**
Purchase Order:	**DEMO-PO-ESG-026**
Invoice Status:	**DEMO — NOT FOR PAYMENT**

BUYER INFORMATION

Organization:	**ESG Platform Demonstration Entity**
Project:	**Demo Infrastructure Project Alpha**
Site Name:	**Demo Project Site 01**
Site Code:	**DEMO-SITE-001**

DELIVERY DETAILS

Delivery Date:	**15 September 2026**
Location:	**Fictional Site, India**
Delivery Ref:	**DEMO-DEL-0042**
Application:	**Stationary generator**
Equipment Ref:	**DEMO-GEN-001**

LINE ITEM DETAILS

Description	Quantity	Unit	Unit Price	Amount
High-Speed Diesel (HSD) Fuel for backup stationary generator power generation	**2,500**	L	₹90.00	**₹225,000.00**

Subtotal:	**₹225,000.00**
Illustrative Tax (0%):	**₹0.00**
Total Amount:	**₹225,000.00**

Currency: INR (Indian Rupee)

FUEL MEASUREMENT & ACTIVITY INFORMATION

Fuel Category:	**Diesel**	**Consumption Period:**	**September 2026**
Activity Category:	**Stationary Combustion**	**Meter / Tank Ref:**	**DEMO-TANK-001**
Equipment Type:	**Stationary Generator**	**Evidence Reference:**	**DEMO-EVIDENCE-0042**
Quantity Received:	**2,500 L**	**Fuel Type Standard:**	**High-Speed Diesel (HSD)**

Important Accounting Notice: This document reflects the *quantity purchased / delivered* (2,500 L). Fuel consumption quantity has not been independently confirmed by this invoice. The platform must distinguish purchased inventory from verified actual consumption.

SYNTHETIC TEST DOCUMENT — NOT A REAL INVOICE — FOR ESG SOFTWARE TESTING ONLY

DEMO DOCUMENT — NO PAYMENT DUE | Synthetic reference sheet for OCR verification and calculation audit.

ESG EVIDENCE & OCR EXTRACTION REFERENCE

Verification baseline for automated extraction, emission factors, and data lineage

A. OCR Target Fields Baseline

OCR Target Field Key	Expected Extracted Value	Data Type
`document_type`	Diesel Purchase Invoice	String
`document_number`	DEMO-DIESEL-INV-2026-0042	String / Identifier
`document_date`	2026-09-15	ISO Date
`supplier_name`	GreenFuel Demo Supplies Ltd.	String
`supplier_reference`	DEMO-SUP-0042	String / Identifier
`project_name`	Demo Infrastructure Project Alpha	String
`site_name`	Demo Project Site 01	String
`site_code`	DEMO-SITE-001	String / Code
`fuel_type`	High-Speed Diesel (HSD)	String
`activity_category`	Stationary Combustion	String
`equipment_type`	Stationary Generator	String
`quantity`	2500	Numeric
`unit`	L	Unit Code
`unit_price`	90.00	Decimal
`currency`	INR	ISO Currency
`line_total`	225000.00	Decimal
`reporting_period`	2026-09	ISO Year-Month
`evidence_reference`	DEMO-EVIDENCE-0042	String / Identifier

Note: OCR engines may normalize formatting, punctuation, dates, and currency symbols during extraction.

B. EMISSION CALCULATION REFERENCE

Activity Quantity:	**2,500 L**
Emission Factor:	**2.68 kg CO_2e/L**
Factor Ref:	**DEMO-EF-DIESEL-001**
Factor Status:	**DEMO REF — NOT APPROVED**
Method:	**Quantity × Emission Factor**
Calculated Result:	**6,700 kg CO_2e**
Result in Tonnes:	**6.7 tCO_2e**

Formula Check: 2,500 L × 2.68 kg CO_2e/L = 6,700 kg CO_2e = 6.7 tCO_2e.

Software Note: Illustrative test calculation only. Application must apply its own configured factors.

C. EVIDENCE LINEAGE REFERENCES

Evidence ID:	**DEMO-EVIDENCE-0042**
Source Doc ID:	**DEMO-DOC-0042**
Submission Ref:	**DEMO-SUB-0042**
Activity Ref:	**DEMO-ACT-0042**
Calculation Ref:	**DEMO-CALC-0042**
Trace Ref:	**DEMO-TRACE-0042**

Synthetic cross-reference labels for QA testing. The target application must generate and persist its own runtime database IDs.

D. EXPECTED END-TO-END WORKFLOW TESTING SEQUENCE
